

Marc Venturi

Manager of Accreditation and Quality Improvement
Canadian Association of Radiologists

ABSTRACT:

CAR Accreditation

CAR MAP: how to succeed and what's next.

MAP is a well recognized and respected modality specific accreditation program. The program is undergoing a revision to it's standards and how it will be implemented (no more paper hopefully). The failure rates have also stabilised, this means there is room for improvement out there. I'm going to discuss some of common issues we see and give an overview of a few of the coming changes.
