

# 2019 MAMMOGRAPHY WORKSHOP

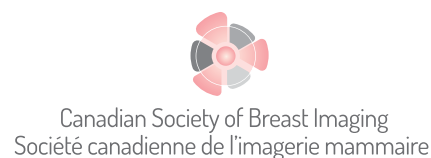

MAY  
**18**

A PROGRAM FOR MEDICAL PHYSICISTS  
& TECHNOLOGISTS

Hôtel Château Laurier Québec  
Québec City

Held in partnership with the Canadian Society of Breast Imaging Conference

# WHY PARTNER WITH COMP?

---

The Mammography Workshop is a rich and unique opportunity to foster inter-professional collaborative relationships and embrace new knowledge, while advancing the continuing education and professional development goals of mammography physicists and technologists. The 2019 program will be held at the Hôtel Château Laurier Québec in Québec City on Saturday, May 18th in conjunction with the Canadian Society for Breast Imaging (CSBI) Conference.

The faculty for the program includes leading medical physicists, radiologists and technologists. The program is designed to maximize interaction between participants, with faculty and with industry partners. As an industry partner, the programs provide exposure to participants from three associations; The Canadian Organization of Medical Physicists; The Canadian Association of Radiation Oncology; and The Canadian Association of Medical Radiation Technologists.

As an industry sponsor, you will have an opportunity to:

- Connect with leaders in the medical physics and radiology community
- Develop relationships with key decision-makers
- Increase your company's visibility and image
- Learn about emerging issues in the medical imaging community in Canada and beyond
- Industry partners benefit and gain access to participants through the educational sessions, meals and coffee breaks

As well, education sponsors will have an opportunity to deliver a presentation on current and upcoming technologies. Note: there are limited spaces available on a first-come, first-serve basis and the speaker/topic is subject to the approval of the Planning Committee. The program will provide continuing education credits from the Commission on Accreditation of Medical Physics Educational Program (CAMPEP).

We are committed to a mutually beneficial relationship with our industry partners. Please contact Nancy Barrett, Executive Director of COMP to discuss how we can best work with you to ensure that you meet your objectives.

# PARTNERSHIP OPPORTUNITIES

---

## EDUCATION PARTNER

**Investment: \$4,000**

- Access for 3 representatives to attend the Mammography Workshop (educational sessions & meals)
- An opportunity to speak at the Current and Upcoming Technologies session during the Workshop (speaking opportunities will be available on a first-come, first-serve basis and the speaker/topic is subject to the approval of the Planning Committee)
- Recognition as a supporter of the overall program
- Opening remarks acknowledgment from the podium
- Recognition on promotional material and on the COMP website
