The COMP Annual Scientific Meeting (ASM) is a unique opportunity to foster collaborative relationships and share and embrace new knowledge. The theme for the 2016 meeting is: Colourful INTERATIONS Colorées and it will be taking place in the heart of St. John’s, Newfoundland from July 20th to the 23th at the Delta St. John’s Hotel and Conference Centre, a perfect place to host COMP’s 62nd ASM.

The ASM is the premier meeting of the Canadian medical physics community and an opportunity for participants to engage in leading edge continuing education and learn about the latest developments in scientific research. The meeting will attract participants representing a broad spectrum of clinical, research and academic interests and the financial support of our partners will help us to design and deliver innovative provide programming for our delegates. As a partner, you will be provided with a unique opportunity to:

• Connect with leaders in the medical physics community
• Develop relationships and position your brand and products with key decision-makers
• Increase your company’s visibility and image
• Learn about and engage in dialogue on emerging issues in the medical physics community in Canada and beyond

As a partner, you will have access to networking opportunities at all of the social events:

• The Welcome Reception on Wednesday, July 20th
• The Poster Reception on Thursday, July 21st
• The Fun Run which will take place on Friday, July 22nd
• The Final Banquet on Friday, July 22nd

In addition, there are three coffee breaks and 2 lunches in the program that will take place in the exhibit area and will provide time for further interaction and networking. In order to maximize your time with the delegates, the Planning Committee will be offering incentives for delegates to visit all exhibit booths and providing a special lunch for exhibitors in advance of the exhibit times.

We are committed to a mutually beneficial relationship with our industry partners. Please contact Nancy Barrett, Executive Director of COMP to discuss how we can best work with you to ensure that you meet your objectives.
