

I would like to submit the following CCPM By-Law amendments for your consideration. The purpose of these amendments is to ensure that Members who are NOT Fellows have representation on the CCPM Board as Officers of the College. There are approximately 507 Members of the College, of which 163 are Fellows who are active members of COMP. The Fellows represent only 30% of the membership, yet 100% of the Board. The optics of this are tantamount to having a small, privileged demographic. I believe that proportional representation is the fairest method of assigning members of boards. Hence, I believe that the CCPM Board should consist of, at most, 3 CCPM Fellows and at least 5 CCPM Members who are NOT Fellows.
